

**Cumberland Valley High School Band Boosters Presents
“Echoes in the Valley”
October 16, 2010**

The Cumberland Valley High School campus is situated in a suburban setting which offers ample parking and green space for our guests. This offers your musicians the opportunity to stage and practice their show prior to the performance without excessive walking to the stadium.

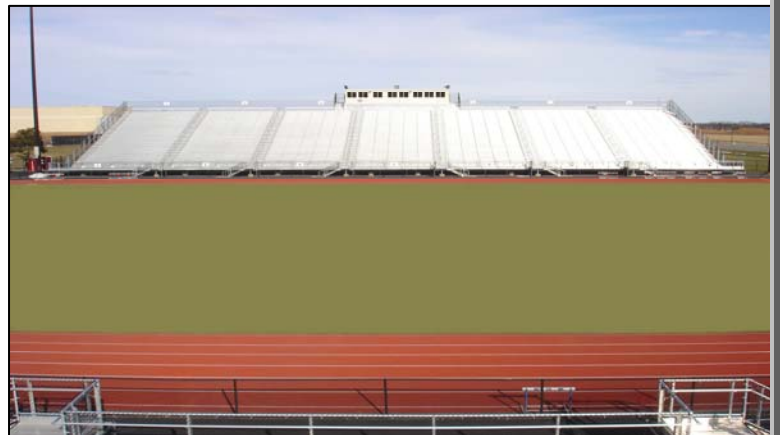

Spectator view from home side

The Cumberland Valley stadium home bleachers feature a high visual perspective similar to Hersheypark’s stadium venue used for ACCs along with a seating capacity for 5,000 spectators.

Our visitors’ bleachers furnish enough seating capacity allowing up to 3,000 band students and staff to relax and enjoy the other bands’ performances.

Quotes from visiting band directors after attending the 2009 Echoes in the Valley band competition:

“As always, the CVBB ran a great show.”

“Kudos..for running another great show...Flow and logistics were handled well. Being from a single A school, it's always a treat for our kids to get in a large, beautiful facility to perform.”

“Thanks to you for putting together a well thought out and staged Echoes Show! The parking and warm up situation was outstanding ... Congrats for putting together a user-friendly environment for the participants. Thanks again for making the experience a great one for the groups...”

**** There are a limited number of slots available for this event. Please register early to guarantee your participation.****
